- Improved Profit

Get The 3rdEye™ Advantage!

3rdEye-GSM™ Post-Mission® and Real-Time® Mobile Unit
with GSM antenna, GPS antenna and
hands-free microphone and speaker

The 3rdEye™ Vehicle Monitoring System® is a **management tool** that lets you closely supervise company vehicles and personnel that you send out to the field. Like your **most trusted friend**, the 3rdEye will tell you exactly where they went, how much time they spent there, and everything else in between!

Here's how you benefit from the 3rdEye:

- ✓ Knowing that they are being monitored, your vehicle personnel will be more faithful to their jobs; they would accomplish more in less time and **be more productive and efficient**
- ✓ Your vehicles will come back earlier; unnecessary overtime hours will go down, **saving you money on wages and fuel - everyday**
- ✓ Knowing where your vehicles are and the routes they took allows you to better plan tomorrow's deliveries, pick-ups and client calls - **your customers will appreciate this!**

Many existing 3rdEye users have already placed repeat orders.
This proves that the 3rdEye System really works!

3rdEye Users tell us that Return On Investment is typically within 6 months or less.
Please contact us for more information.
